

## PRODUCT DESCRIPTION

Sound To Go is an all-in-one micro speaker that is fully portable and encased in an elegant brushed aluminium chassis. The USB cable powers and allows for audio streaming from any computer system, while its auxiliary input enables the use of multiple host devices. Sound To Go uses its 3 x 1¼ inch oval shaped subwoofer, two 1¼ inch mid-range drivers and two 1¼ inch tweeters with a built in amplifier to provide exceptional audio performance above and beyond any built in speaker solution. Control the volume using the button on the device or through the host device. Sound To Go is a great solution for home or business use.

## FEATURES

- USB audio streaming capabilities
- Volume controlled via the "Sound To Go"
- Auxiliary input connects to audio enabled devices
- Magnetically shielded, 3 x 1¼ inch oval subwoofer with built in amplifier
- Two, 1¼ inch mid range drivers and two, 1¼ inch tweeters, all magnetically shielded
- Soft protective carry pouch for transportation
- USB cable included

## SPECIFICATIONS

Total power output:	RMS 1W x 2
THD + N (testing level):	10%
Signal to noise ratio:	≥75dBA
Frequency response:	20Hz - 20KHz
Distortion:	≤1%
Input sensitivity:	USB: 800mV ± 50mV (THD+N=1%)   AUX: 500mV ± 50mV (THD+N=1%)
Audio Input Type:	USB, Auxilliary
Subwoofer / bass unit:	3 x 1¼ inch oval, magnetically shielded, 5Ω
Midrange / high unit:	Two circular 1¼ inch, magnetically shielded
Tweeter unit:	Two circular 1¼ inch, magnetically shielded
Dimension:	261mm x 36mm x 44mm (W x H x D)
Weight:	0.33Kg (Net) / 0.50Kg (Gross)
